

Coats Lucence

Coats Lucence is an embroidery thread with a special 'Glow in the dark' effect which is ideal for making children's clothing more exciting, or for adding that extra special decorative feature. The thread is 'charged' in sunlight or in artificial light (to a lesser degree) and emits a luminous glow quality when viewed in the dark.

Main Uses:

- Glow in the dark embroidery
- Glow in the dark decorative top stitching
- Decorative stitching and embroidery on children's wear, sportswear and fashion apparel

Why choose Lucence?

- Excellent performance on embroidery and decorative topstitching applications.
- Makes children's clothing more exciting.
- Catches the eye with the special glow in the dark effect.
- High abrasion resistance for durability in wash and wear.
- Certified to Öko-Tex Standard 100, class I, the most stringent class covering textile items for babies and toddlers.
- Meets Coats restricted substance list.

Coats Lucence retains its glow-in-the-dark characteristics after a number of washes with limited loss of glowing power following 15 washes at 60°C. It is recommended to wash at temperatures less than 60°C. When ironing, use cool iron and do not use steam.

Since conditions and applications vary considerably in the use of a product, the customer and/or user should assure herself or himself that the product meets end customer requirements and is suitable for the intended end use. Coats accepts no liability for unsuitable or improper use or application of products.

Information provided above is based on current averages and should be taken only as indicative. Coats accepts no liability for the preciseness and correctness of the information provided.

Product information sheets are updated from time to time, please be sure you are referring to the most recent publication. Coats supports customers with advice on individual applications on request; if you have any questions or concerns, please contact us.
